  ◦ Scored:84.33%

PROJECTS

Project A : Resort Management System

Role: [Your Role – Team Leader, Backend Developer, UI/UX Designer]
Technologies Used: [Java, MySQL, HTML/CSS]

Developed a comprehensive Resort Management System to streamline booking, customer management, and staff operations. The platform supports room reservations, billing automation, inventory tracking, and real-time availability updates. Implemented an admin dashboard for managing guest records, check-in/check-out processes, and service requests, significantly reducing manual workload and improving operational efficiency.

Project B: E-Learning Platform

Role: [Your Role – Frontend Engineer]
Technologies Used: [React, Node.js, MongoDB, Firebase, MySQL]

Designed and developed a feature-rich e-learning platform enabling seamless interaction between instructors and students. Implemented functionalities such as course creation, video lectures, quizzes, progress tracking, and secure user authentication. Instructors can upload and manage content, while students can enroll in courses, submit assignments, and receive feedback. Integrated real-time chat and notifications to enhance communication and engagement.

SKILLS

◦ **Programming Languages:** C++, C, JAVA
◦ **Web Technologies:** Tailwind CSS, HTML 5
◦ **Database Systems:** SQL, MYSQL
◦ **Other Tools and Technologies:** VS Code, Linux,OOPS Concept

Certificates

- Certificate for completion of Python from Udemy.
- Certificate
- Certificate for completion of AWS Certified Advance Networking CL 1 From LINKEDIN LEARNING.
- Badge for python2, Cyber Security from CISCO .
- Certificate for Data Analytics internship from Accenture and Deloitte.
